Authorized to work in the U.S. on STEM OPT; eligible for 24-month STEM extension (~3 years total, no sponsorship cost or H-1B lottery required now).

SUMMARY

IT Administrator and support specialist with hands-on experience installing, configuring, and troubleshooting Windows, Linux, and macOS systems across corporate and lab environments. Skilled in OS/software deployment, domain joining and security-tool rollout, remote end-user support, network-device setup, and hardware/software inventory reconciliation. Experienced preparing desktops and laptops in bulk for training and new joiners, supporting AV/meeting-room setups, and keeping systems reliable in fast-paced environments.

CORE TECHNICAL SKILLS

Operating Systems:	Windows, Linux (Ubuntu/CentOS), macOS - installation, imaging, troubleshooting, performance tuning
IT Support:	Remote support tools, ticketing, end-user support, software install/uninstall, patching
Systems & Security:	Active Directory / domain joining, security-tool deployment, endpoint configuration, audit support
Networking:	Network device installation & configuration, LAN/Wi-Fi setup, connectivity troubleshooting
Hardware & Labs:	Desktop/laptop provisioning (bulk), lab & test-bench configuration, AV / meeting-room setup, asset reconciliation
Scripting & Tools:	Python, Bash, SQL, PowerShell basics; automation of routine IT and provisioning tasks

EXPERIENCE

IT Administrator (Mail Room)

January 2024 - December 2025

University of Massachusetts Dartmouth

- Provided front-line IT support for mail room and campus operations - set up, imaged, and troubleshot Windows and macOS workstations, printers, scanners, and label/barcode systems.
- Installed and configured software and security tools on end-user devices; handled domain joining, patching, and routine performance improvements.
- Delivered hands-on and remote support to staff and students, resolving connectivity, login, and hardware issues.
- Prepared desktops and laptops in bulk for new joiners and seasonal peaks; supported network-device and AV/meeting-room setups.
- Maintained hardware and software inventory records with periodic reconciliation and audit support.

IT Administrator (Technical Training Labs)

June 2023 - January 2024

Sahyadri Polytechnic Sawarde

- Administered computer labs used for technical training - installed and troubleshot Windows and Linux operating systems and software across 40+ workstations.
- Prepared desktops and laptops in bulk for new training batches, imaging machines and standardizing configurations for fast turnaround.
- Provided hands-on and remote support to students and staff for OS, software, network connectivity, and hardware issues.
- Configured and maintained network devices, lab test benches, and AV/projector setups; kept inventory records with periodic reconciliation.

IT Administrator (Systems & End-User Support)

January 2022 - June 2023

Trismus Healthcare Services

- Installed, configured, and troubleshot operating systems (Windows, Linux, macOS) and software across corporate end-user devices.
- Handled system domain joining and deployment of security tools and endpoint agents to keep devices compliant.
- Delivered remote support for on-site and off-site users, resolving connectivity, access, and performance issues.
- Supported network-device installation/configuration and maintained hardware/software asset records with documentation for audits.

SELECTED PROJECTS

- Lab Provisioning Automation - scripts to image and configure batches of desktops/laptops, cutting setup time for training sessions.
- Test Network Lab - configured routers, switches, and Wi-Fi with VLAN and remote-access setup for hands-on networking practice.

EDUCATION & CERTIFICATIONS

M.S. Data Science -	University of Massachusetts Dartmouth, MA US	(December 2025)
B.Tech Computer Science & Engineering -	Symbiosis International University, India	(June 2022)
Diploma in Computer Engineering-	Sahyadri Polytechnic Sawarde, India	(May 2019)

Certifications: PMI-ACP (Agile);
coursework and self-study in networking, systems administration, and IT support.
